Hajee Mohammad Danesh Science and Technology University, Dinajpur (Jan 2020 – Dec 2024)

Higher Secondary Certificate (HSC), Science
Police Lines School and College, Rangpur (2019)

PROJECTS

StudioSpace — Creative Workspace Marketplace

A peer-to-peer marketplace where creators can discover and book professional creative workspaces, while studio owners can list and manage their spaces.
Key features: Category-based studio discovery and search; email/password and Google authentication; studio listing management with image uploads; booking and reservation management; personal dashboard; responsive layout; light and dark themes.

FitLog — Workout Library

A responsive workout library and gym companion built with Next.js. Users can explore workouts, search and sort the library, add up to five lifts to today's plan, and save or mark workouts as done. Plan and workout states persist across reloads using browser localStorage.
Key features: Responsive workout grid; live search and sorting by duration, calories, or rating; five-workout daily plan limit; persistent Plan, Saved, and Done states; custom 404 page.
